Introduction

"Tech communities is much more than belonging to something; it is about doing something together that makes belonging matter" ~ Brian Solis.

These communities are driven by a group of people with a shared code of conduct to help and respect each other all through their sustainable and intellectually stimulating growth process and stages in the tech ecosystem.

"When you see someone as involved in the process as you are, it result in an intense drive and motivation" ~ HachStacks.

THE VISION

HachStacks aims at identifying these tech minds, CONNECT, guide, teach and allow them EXPLORE the tech ecosystem with access to premium resources that will help them GROW into tech giants.

Aims & Objectives

Explore

We are dedicated to building a community of AKSU developers with digital technology skills by giving hands-on programming experience. The community is designed for everyone who are interested in learning the fundamentals of software development through digital skills training, coding boot camps, and remote internships for tech-savvy students. This community is open to collaboration with both local and international startups.

Connect & Guide

The goal of HachStacks is to identify and develop AKSU students into full-fledged tech developers who are ready to apply their newly acquired skills in leading organizations, communities, and their home countries, while also providing them with resources, mentorship, and advancement opportunities in the technology industry.
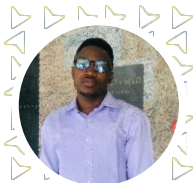

Grow

We will partner with corporate job placement firms, and recruiters looking for Africa s best IT talent to place the top 5-percent of our trained and upskilled Hachstacks alumni members in lucrative jobs.
